STATINTL

1. In response to his query of 1 May, I informed Congressman Judd's office, in his absence, that there was [REDACTED]

3. I talked on the phone with Congressman Prouty, again discussing with him his letter of 7 April 1952 to the DCI requesting information as to the number of CIA personnel engaged in the preparation of budget requests. I stressed to the Congressman the fact that we greatly disliked discussing any budget information other than with members of the Appropriations Committee and that I would very much appreciate it if he withdrew his request. This he agreed to do, at least for the time being.

4. Mrs. Giles of the office of Senator McMahon called to state that they had a letter from a [REDACTED] formerly employed by CIA who stated that he had been asked to resign by CIA and then when he was about to receive other Government employment, was informed he could not be hired because CIA had declared him to be a Security risk. After talking with Col. Edwards, I informed Mrs. Giles that CIA never gave an evaluation as to whether a person was or was not a Security risk, although our files are open to appropriate Security officers. Therefore, while it is correct as [REDACTED] stated, that we had requested his resignation, we had certainly not informed other agencies that he was a Security risk.
